Cribden House school

We have a fantastic forest and love getting creative (messy!) in the woodland. We wanted to explore natural materials in the forest and create some super art work. We created aliens from clay and other natural resources in the forest area.

"It was all smooth in my hands the wet clay. I wanted my alien to have a huge smile like mine"

Messy Hands!

"I wanted to make a scary alien that would be camouflaged in the tree". **Cohen**

Even the adults joined in!
