E-Safety/Online Safety Policy

Statement of intent

At Cribden House School, we understand that computer technology is an essential resource for supporting teaching and learning. The internet, and other digital and information technologies, open up opportunities for pupils and play an important role in their everyday lives.

Whilst the Cribden House recognises the importance of promoting the use of computer technology throughout the curriculum, we also understand the need for safe internet access and appropriate use.

Our school has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

The school is committed to providing a safe learning and teaching environment for all pupils and staff, and has implemented important controls to prevent any harmful risks

The DfE are currently consulting on a new version of their child protection and safeguarding statutory guidance, 'Keeping Children Safe in Education', which is expected to be released in September 2016.

The updated draft guidance contains additional information and clarification related to e-safety, including:

- A new section dedicated to online safety; it sets out how schools should ensure that appropriate filtering and monitoring systems are in place, and that such systems should be able to identify pupils accessing or trying to access, harmful or inappropriate material.
- Rewording from "should consider" to "should ensure" with regards to how schools will teach their pupils about safeguarding, including online.
- Clarifying that whilst it is important for schools to ensure that appropriate filters and monitoring systems are in place, "over blocking" should not lead to unreasonable restrictions as to what children can be taught with regards to online teaching and safeguarding.
- Stating that 'the use of mobile technology' should be included in schools' child protection and safeguarding policies.
