

Grasshoppers Class Report Autumn 2018

The Grasshopper class have had a fantastic start to the year! We have really enjoyed being back at school and we have done some super learning!

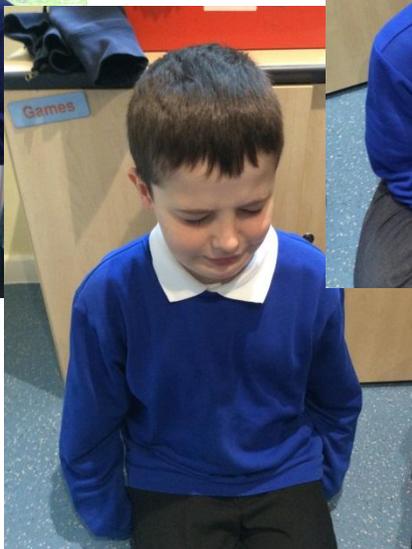

Maths

In Maths this term we have been learning some really tricky things. We have learnt lots about numbers such as prime numbers and factors. We have also been doing lots about angles measuring and drawing them using a protractor. We have enjoyed playing lots of different Maths games especially when we were learning about regular and irregular polygons.

English

We have really enjoyed English over the last term. We read the story Friend or Foe by Michael Morpurgo. It is all about WWII and two evacuee boys, it was really interesting. We worked together in groups a lot and produced some fantastic drama pieces. We did some work on describing the characters from the story and even produced our own front cover! We did lots of writing based around the book and we really enjoyed writing our own chapter for the book.

Science

This term in Science we have been learning about shadows and the solar system. We really enjoyed investigating shadows. We did a lot of research about stars we found this really interesting. We also created our own earth and moon models which was really fun!

Topic

Our topic this term has been WWII which linked really well with the book 'Friend or Foe' we are reading in English. We have learnt so much about the war. We learnt about Evacuees and made our own gas masks! We then learnt all about rationing and we even tried some war time recipes our favourite was the eggless sponge it was delicious! We learnt lots about the different planes used during WWII and made our very own models! We really enjoyed learning about the bomb shelters; we were making our own using different materials when Miss Allan played the air raid siren, which was scary!!

Swimming

This term we have been able to go swimming it has been so much fun! We are growing in confidence every week and some of us now can jump in the deep end without any help!
